

HOKKAIDO

DRIVE GUIDE 2018

From magnificent views to delicious food, enjoy dynamic,
fascinating Hokkaido in any season.

The Beauty of Hokkaido

Dining

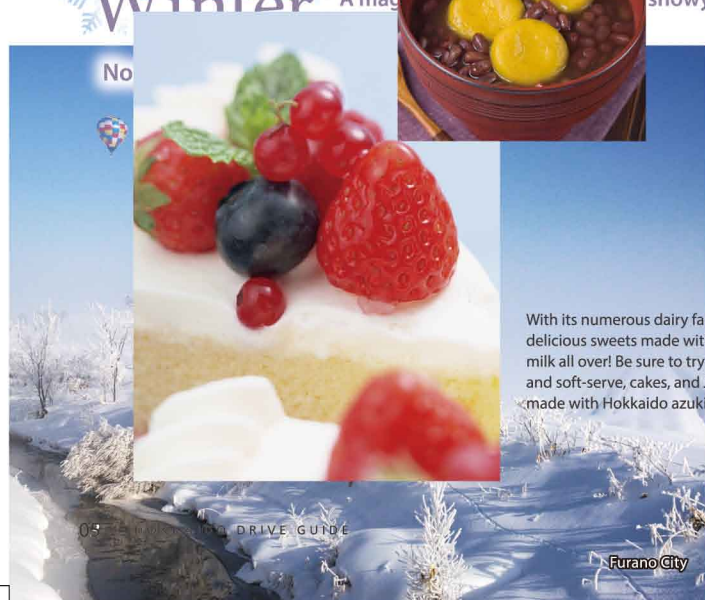

Hokkaido, embraced by the sea and rich in natural fields, offers a taste of sea and land to fit every season. Be sure not to miss the unique dishes you can only find in Hokkaido.

"Genghis Khan" Mutton

Genghis Khan is mutton grilled on a special iron griddle as you eat, a local Hokkaido specialty. Each shop has its own special dipping sauce for the dish. In summer, eating it outdoors with a glass of cold beer is the true Hokkaido way!

Sweets

With its numerous dairy farms, Hokkaido is famous for its delicious sweets made with fresh milk all over! Be sure to try the soft-serve, cakes, and Japanese sweets made with Hokkaido azuki beans.

Sushi

Hokkaido dining means sushi and seafood bowls! Hokkaido is known for its fresh, flavorful seafood that's still cheaper than other regions. Sushi restaurants are concentrated in port towns like Hakodate or Otaru, and in the biggest market, Sapporo.

April-May

Higashimokoto-Shibazakura Park

The beauty of flowers all in bloom at once.

Spring in Hokkaido: plants grow green as the snow melts. You can enjoy the latest cherry blossom viewing in Japan. Flower gardens and parks all over start opening from the end of April.

Autumn

A season to enjoy the bounty of the land.

September - October

Bieicho

A season to enjoy flavor of the harvest.

Autumn in Hokkaido: harvest time. As the sea temperature starts to drop, the seafood grows more delicious. The view of mountains colored with the changing leaves is also beautiful. We recommend a drive to chase the sights and flavors of autumn!

Packed with Snowy Fun

Winter in Hokkaido: snow piled high. There are huge festivals centered on snow and ice, and of course tons of winter sports. Visit a magical world full of snow and ice sculptures.

The Beauty of Hokkaido

Activities

Hokkaido's bountiful nature offers the chance to move and experience the outdoors year-round, with sports and exploration aplenty!

Dogsled races

Experience the snowfields to the fullest on a dogsled, just like Antarctic Explorers!

Fruit Picking

You can pick fruit like strawberries, cherries, grapes and Japanese pears at orchards from Spring to Autumn. Savor the fresh picked flavor!

Fishing

Hokkaido is full of clear streams. Relax and go fishing in our mountain streams and ponds!

Canoeing

Take in the scenery from atop Hokkaido's lakes, which have the best water quality in Japan.

Golf

Golfing is at its best in Hokkaido's grand natural splendor. There are courses to satisfy even the most advanced player.

Winter Sports

In addition to skiing and snowboarding, enjoy snow shoes and snowmobiling on the wide white fields.

Balloon Rides

Take moored hot air balloon rides in Tokachi, Furano and more. You're sure to be moved by the sky-high view.

Horseback Riding

Even beginners can go out that day and roam the wilds on horseback.

Chitose Outlet Mall Rera (Chitose)

The Ministry of Agriculture, Forestry and Fisheries began this program in 2016 to promote foreign tourism in Japan through "Food, Industry and Resources." It certifies areas that offer regional dishes sourced from local agriculture and industry amid distinct regional resources like scenery. Tokachi was certified in the first round, and is Hokkaido's only certified area.

Tokachi [Hokkaido]

Take in the food and scenery in farming frontier Tokachi!

Tokachi is Hokkaido's foremost farming area, located on an enormous plain near the center of the island, and surrounded by towering mountains with the Hidaka range to the west and the Daisetsuzan range to the north and with some of the longest daylight hours in Japan. Fields spread far as the eye can see, dotted with grazing cattle. This idyllic area offers visitors a true taste of the grandeur of nature Hokkaido is known for. One of its true appeals is its carefully nurtured farm products. Tokachi offers more than just sightseeing, with plenty of activities to try yourself!

Expressway driving tips

1 Before driving

The driver and passengers must wear seatbelts.
Be sure that any backseat passengers are also wearing their seatbelts.

2 Entry toll booth

When you're driving a car with ETC

Enter at less than 20 km/h and drive slowly through the ETC lane.

When driving a car without ETC

Stop at the entrance tollbooth and take a toll ticket from the automated ticket machine. You will pay when exiting the expressway.

3 Exit toll booth

When you're driving a car with ETC

Enter at less than 20 km/h and drive slowly through the ETC lane.

When driving a car without ETC

When exiting, hand your toll ticket to the attendant and pay the toll in cash or by credit card.

4 Another type of tollbooth

The toll between Sapporo-Nishi and Sapporo-Minami ICs is a flat fee.
Pay the toll when entering the expressway.

Otaru IC ⇄ Sapporo-Nishi IC
Sapporo-Nishi IC and Otaru IC have no tollbooths for cars entering the expressway.
When entering at Asari IC, Zenibako IC, or Teine IC, take the toll ticket.

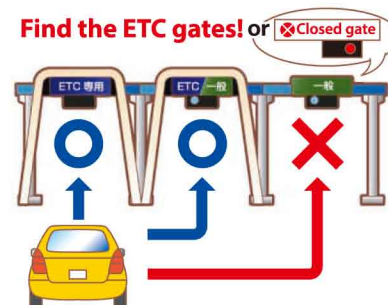

5 What's the "electronic toll collection system" (ETC)?

This expressway toll payment system allows your vehicle to pass through the tollgate and pay the toll without stopping. Securely insert your ETC card (an IC card) into the ETC device in your vehicle. When the device transmits your ETC data to the receiver at the toll booth, paying your toll and opening the tollgate.

- When you drive through the tollgate, use either an ETC-only gate「ETC専用」 or a combined gate that can be used by either ETC or cash-paying vehicles「ETC一般」. (Lanes that you can use will be marked with one of these signs above the lane: 「ETC専用」 or 「ETC一般」).
- Entry and exit lanes are blocked by gates. If you do not have an ETC card in your ETC device, the roadside display monitor at your gate will display "STOP" and the gate won't open. This is true for both entry and exit lanes.
- An ETC lane with a red signal is out of service. Please use a booth with an attendant.
 - If an entrance is displaying a red signal: Receive a toll ticket from the entrance tollbooth attendant. When you exit the expressway, you must once again use a lane staffed by an attendant and hand the attendant your ETC card. (If you attempt to exit the expressway through an ETC lane, the gate will not open.)
 - If an exit is displaying a red signal: Use a lane staffed by an attendant and hand the attendant your ETC card.

Important points for ETC users

- Have you inserted your ETC card correctly?**
If you forget to insert your ETC card or if you insert it improperly, the tollgate won't open. Before you set out, please be sure that your ETC system is working.
- Keep a safe distance from the vehicle ahead of you.**
Be prepared for the car in front of you to stop suddenly.
- Never back up in a toll lane!**
If you stop in an ETC lane, please wait for an attendant to come to you. If you back up, you may hit the car behind you or the attendant.

6 Regarding Smart ICs

- Smart IC is only for ETC.
(A vehicle with an ETC card but no ETC transponder can't use a smart IC gate)
- ETC only works at this gate when the vehicle is stopped. The gate will not open if you do not stop your vehicle. Be sure to stop.
- Be sure to stop.

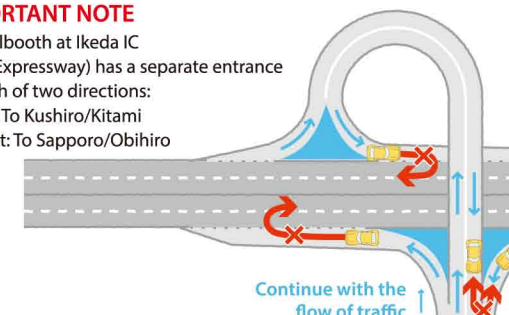

7 Don't drive into oncoming traffic! (IC/Service area/ Parking area)

IMPORTANT NOTE

The tollbooth at Ikeda IC (Doto Expressway) has a separate entrance for each of two directions:

- Left: To Kushiro/Kitami
- Right: To Sapporo/Obihiro

8 Points to keep in mind while driving

- Don't take your eyes off the road!
- Keep a safe driving speed.
- Maintain a safe distance from the vehicle in front of you.
- Watch out for animals on the roadway!

9 Park in properly parking spaces!

If a standard-sized vehicle parks in a large space or a large vehicle parks in a standard-sized space, you may inconvenience other drivers. Please park properly within a parking space appropriate for the size of your vehicle. (An attendant may direct you to a suitable parking space.) Drive slowly in the parking area. Watch out for pedestrians and other cars.

10 Be careful of these places in winter weather!

11 If you have an accident or breakdown...

After stopping your car, mark your location with flares and/or warning triangles.
The driver and passengers should carefully exit the vehicle while paying close attention to traffic, then stay in a safe location such as outside the guardrails.

To report an accident or other breakdown, use the expressway emergency phone or call #9910 from your mobile phone. The road control center is operational 24 hours a day.

Be careful not to run out of gas!

Service areas and Parking areas with gas stations

- When driving on the DOTO EXPWY toward Obihiro, **the Yuni Parking Area is the last gas station**, so check your remaining gasoline before proceeding.
- **The Wattsu Parking Area has limited operating hours**, so when driving at night be sure to fill your gas tank early.

Rest areas to help you enjoy your long drive in Hokkaido!

"Michi-no-Eki" can be found along normal national highways and roadsides, and Hokkaido has 119 registered with the MLIT. They offer a number of services to help make your drive more comfortable.

24 Hours

1 Rest Areas

They have free parking and toilets you can use 24 hours a day. Also available as emergency facilities.

2 Information Services

Traffic or sightseeing information is available from highway images and staff, or using Wi-Fi. Facility opening hours differ by location.

3 Local products and food

You can enjoy a variety of locally produced goods and meals. Facility opening hours differ by location.

It's mobile compatible, as well.

Regulatory Signs

Make sure you come to a complete stop at stop signs and railway crossings.

Stop signs are in the shape of an inverted triangle. When you approach a stop sign at an intersection, please be aware that there might not be stop signs for traffic perpendicular to you. This means that such traffic may approach at high speeds. If your failure to stop at the intersection results in a crash, you'll be at fault. Please be sure to stop at stop signs.

Hokkaido Expressway Pass

Popular among visitors
from overseas!

Unlimited use from as little
as 807 yen per day!

An essential item for your
trip to Hokkaido!

With the Hokkaido Expressway Pass, enjoy unlimited use of Hokkaido's expressways, for one fixed price!

Be sure to rent an ETC card for the Hokkaido Expressway Pass with your vehicle.

*ETC (Electronic Toll Collection) is a system that enables the payment of expressway tolls without having to stop, by means of wireless communication between an antenna located at the toll booth, and the ETC card (IC card) inserted into the card holder in your vehicle.

3 advantages

1

Fixed price for peace of mind!

Peace of mind, as no matter how far you travel by expressway in Hokkaido, the price is fixed.

2

No need to Speak or Read Japanese!

When you use ETC, there's no need to come to a complete stop at toll booths. And you need not worry about communication in Japanese. *Please pass through the ETC gate at no more than 20 km/h.

3

Save more time!

Hokkaido is huge: It's about 300 km from New Chitose Airport to Hakodate, and about 450 km to Shiretoko. By using the expressways, travelling times can be shortened.
